Objective

Aspiring AI Engineer with hands-on project experience in Retrieval-Augmented Generation (RAG), LangChain, and Generative AI. Graduated with a B.E. in Computer Engineering (2025). Seeking the AI Engineer position at Dataeaze Systems to apply expertise in LLM pipelines, Python (Pandas, NumPy), and automated model validation to build robust, scalable AI platforms and document analysis solutions.

Projects

LLM Evaluation CI/CD Pipeline | *Python, GitHub Actions, Gemini API, MLOps* **Live Demo | GitHub**

- Developed a Python-based MLOps pipeline running automated model evaluation, validation, and benchmarking checks.
- Implemented LLM-as-a-judge scoring frameworks to validate model outputs for quality, factual accuracy, and safety.

MedEcho (Clinical & Diagnostic AI Assistant) | *React.js, LangChain, MongoDB, Gemini API* **Live Demo**

- Designed an AI diagnostic platform using multimodal models to analyze medical images and speech inputs.
- Integrated Gemini 2.5 Flash for image radiography anomaly localization (2D bounding boxes) and symptom extraction.
- Engineered low-latency Retrieval-Augmented Generation (RAG) pipelines using LangChain to parse clinical PDFs.

AI Attendance System (attendai) | *Python, Pandas, NumPy, Streamlit, Gemini API* **Live Demo | GitHub**

- Engineered an automated face-matching computer vision workflow leveraging Gemini Vision API to verify users.
- Built robust data pipelines using Pandas and NumPy to preprocess, validate, and log real-time attendance records.

Skills

AI & Data Science: Generative AI, LLMs, RAG, LangChain, Prompt Engineering, MLOps, Pandas, NumPy

Languages & Backend: Python, JavaScript (ES6+), Node.js, Express.js, RESTful APIs

Frontend & Databases: React.js, Streamlit, Tailwind CSS, MongoDB, MySQL, Firebase

DevOps & Tools: Git, GitHub Actions (CI/CD), Postman

Experience

Mira Advanced Engineering **Jan 2024 – Feb 2024**
MERN Stack Development Intern *Mumbai, Maharashtra*

- Developed 3+ full-stack web application modules using the MERN stack, facilitating front-to-back integration.
- Built secure CRUD modules and RESTful APIs using MySQL and Firebase databases for user authentication.

Education

Marathwada Mitra Mandal's Institute Of Technology, Pune **Graduated 2025**
Bachelor of Engineering (B.E.) in Computer Engineering *CGPA: 7.65/10*

Certifications & Achievements

IBM Professional Certificates – RAG & Agentic AI, AI Engineering (In Progress)

COMSYS Hackathon 2024: Secured 1st Runner-up for an innovative Medical Report Analyzer.

Bug Bounty Competition: Winner of the campus-wide Bug Bounty Competition.
